

9.9

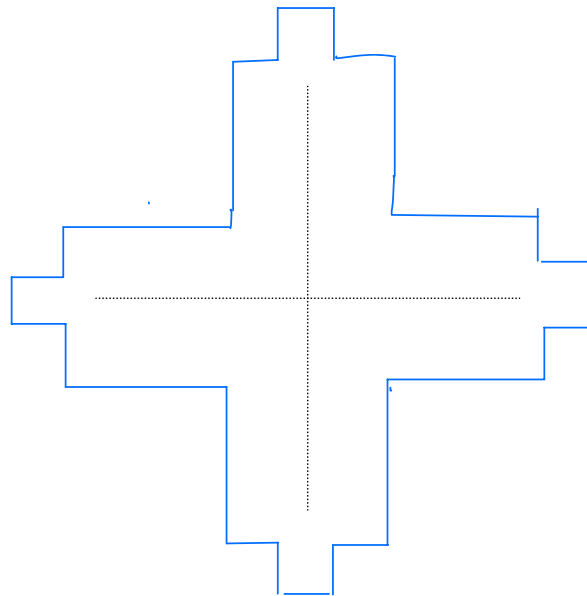

I did this on a grid
but removed the grid
to be able to see better

$$a) A \ominus B^u =$$

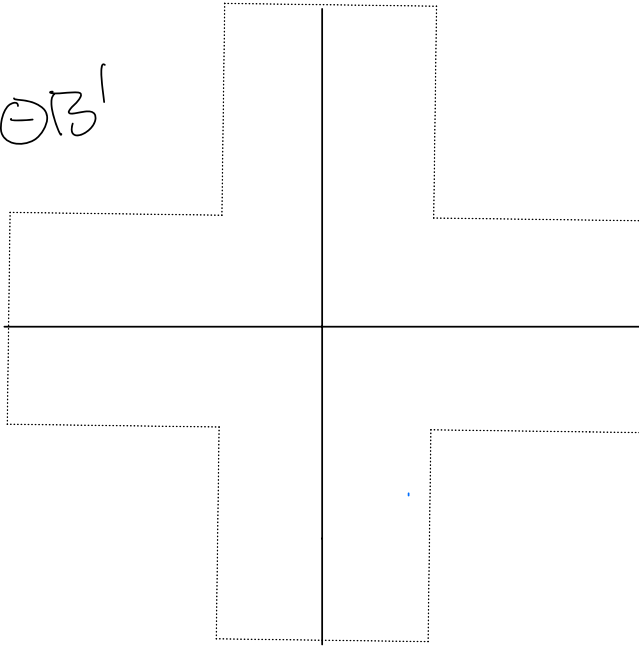

$$\textcircled{1} B^2$$

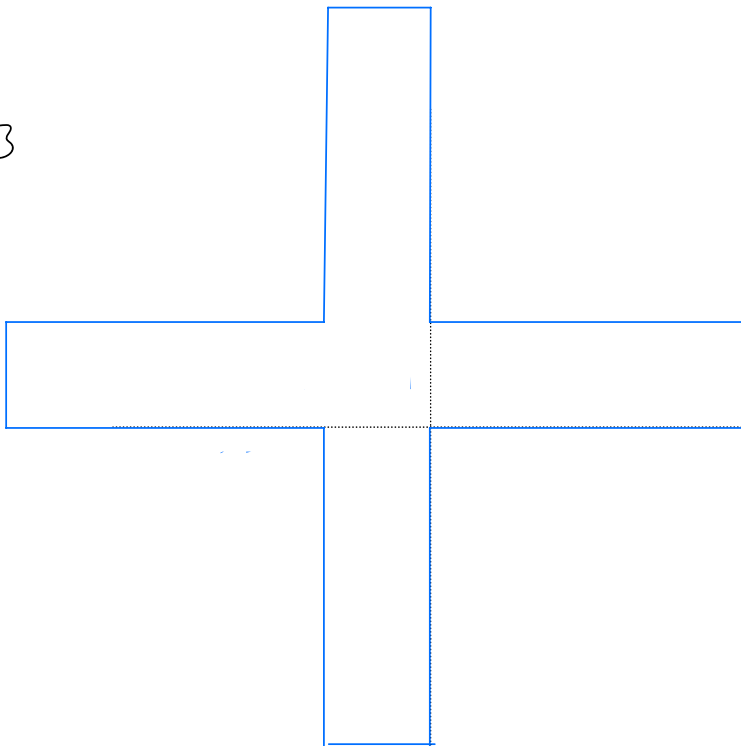

3)

$$A \ominus B^1$$

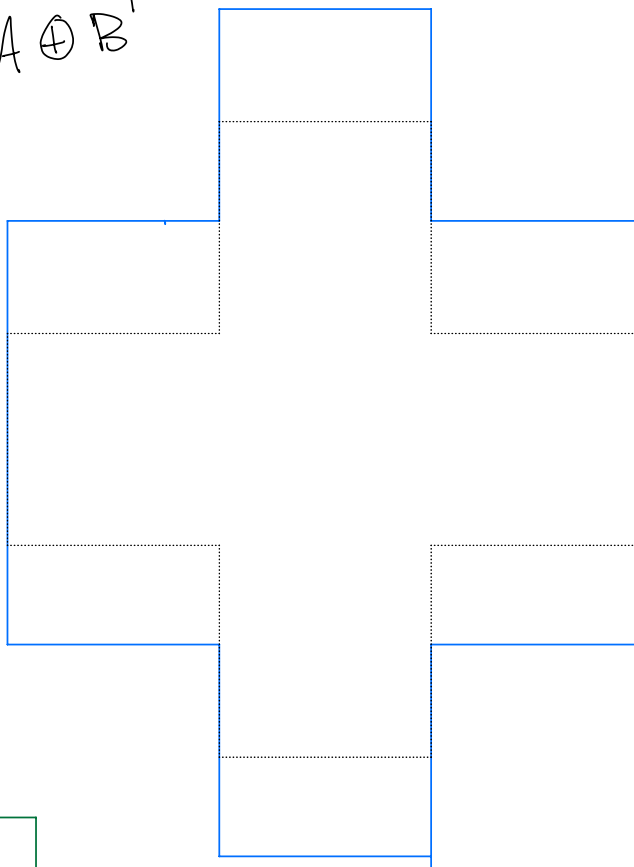

$$④ B^3$$

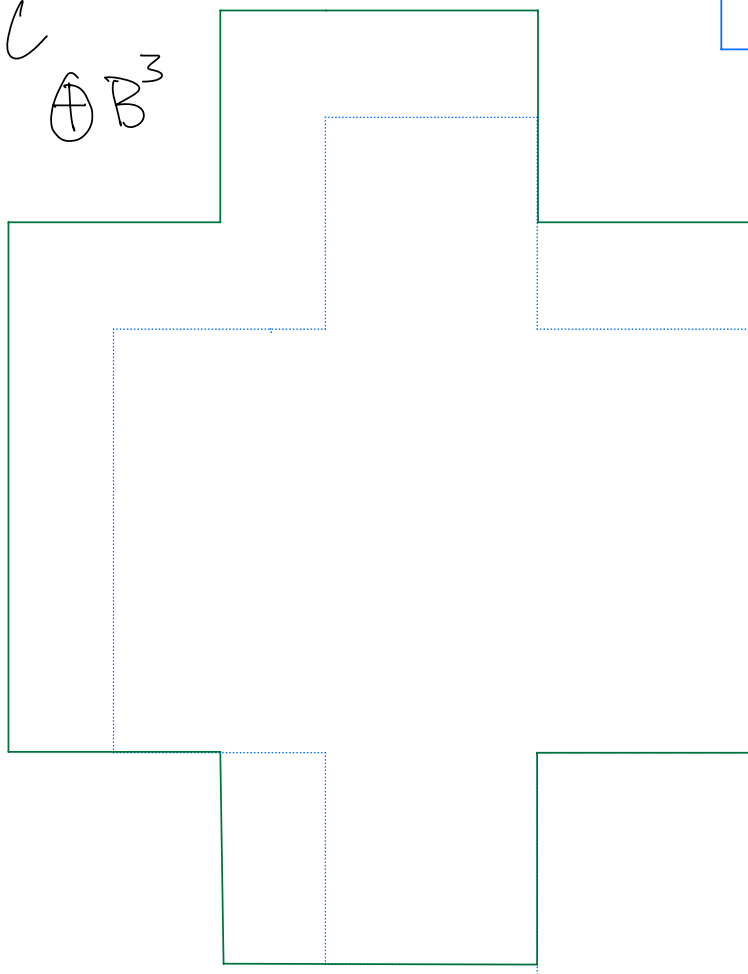

C

$A \oplus B'$

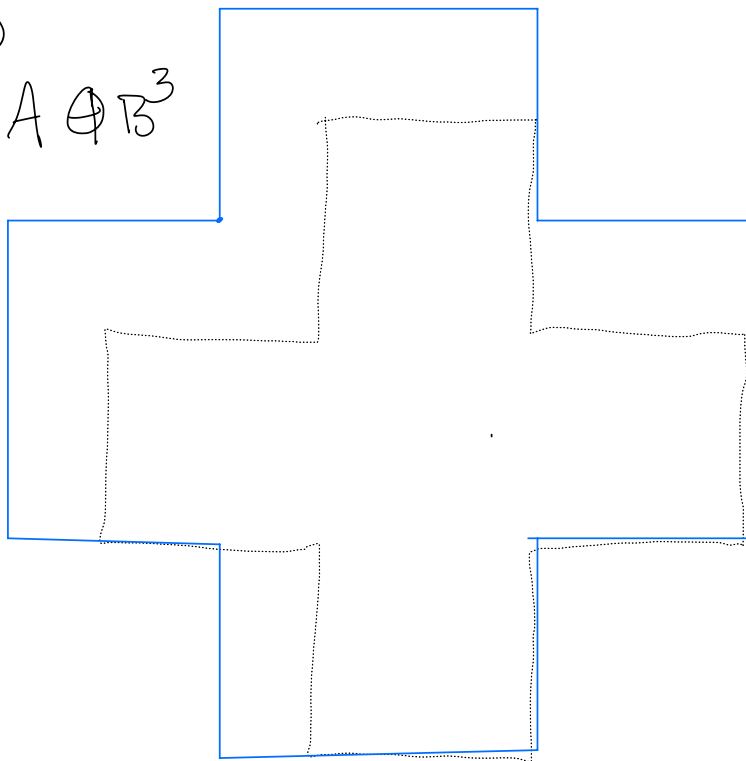

C

$A \oplus B^3$

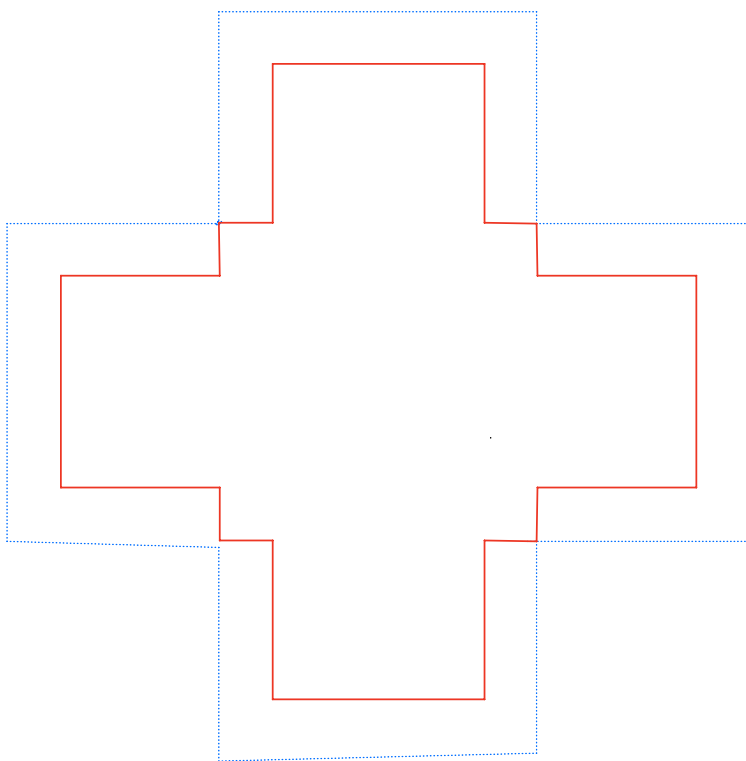

D

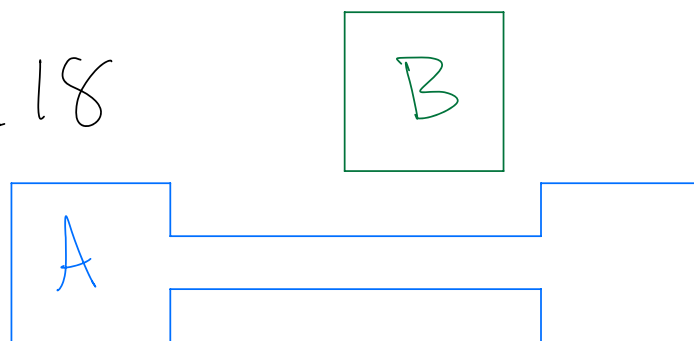

$$A \oplus B^3$$

$$\ominus B^2$$

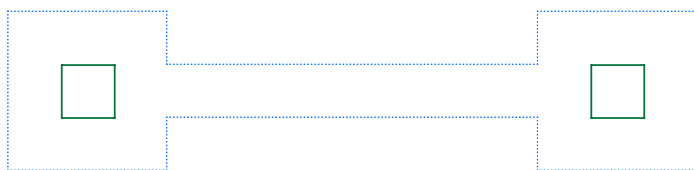

9.18

opening $(A \ominus B) \oplus B$

$A \ominus B$

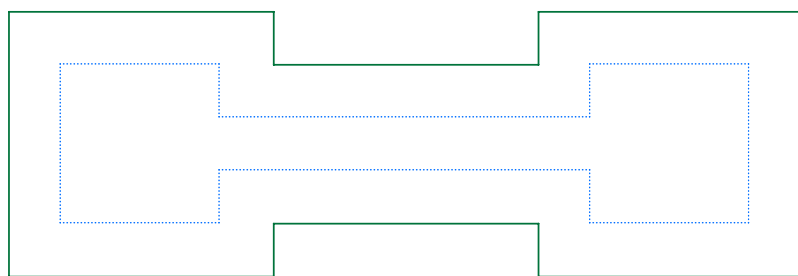

$\oplus B$

closing $(A \oplus B) \ominus B$

$A \oplus B$

$\ominus B$
